JOY OUS CAREER OF JOSIE.

How Her Domestic Life Has Become One Grand, Sweet Song. The milkman rushing up the back

steps arouses Josie, the domestic electrician. Finding that it is time to get up, she turns on the switch at the head of her bed. "Having thus put into operation the

electric cereal cooker in the kitchenwhich is also a combination water boiler-Josie performs her toilet. By the time she is ready to descend to the kitchen the water for the coffee is boiling, and in seven or eight minutes both cereal and coffee are ready for the table."

It is H. W. Hillman of Schenectady who thus describes the dawn of a domestic day when said day is run by electricity. Hillman enjoys the distinction of possessing the first house built with a view to the complete application of electricity to domestic

Writing in Good Housekeeping, he tells inside of one minute has the bacon and eggs frying; how in the meantime he has turned the current on to the electric shaving mug, which furnishes hot water in less than one minute. Possibly Mrs. Hillman has improved the shaving interval to operate the electric curler. Mr. Hillman does not say so, but in another place he includes the hair curler in the electrical equipment #so it is age to infer that the lady arrives at the electric breakfast becomingly waved.

After breakfast Josie washes the dishes

in electrically boiled water, then turns on the flat iron switch and in three or four minutes has piping hot irons. In the meantime Mrs. Hillman had been

ssked over the telephone for the loan of the electric heating pad, a neighbor having been taken with a chill and the neighbor's hot water bag having been taken with a

leak.

Also meantime—everything seems to be going on meantime at Mr. Hillman's—the New England dinner is cooking calmy, one might almost say coolly, in the four quart electric kettle. And, yet again meantime, Mrs. Hillman is allowing the electric sewing machine to run up a few seams for her.

for her.

"I have used a coal stove for about ten years," says Mr. Hillman, "and a gas stove for six years. With coal at, an average price of \$6.50 per ton, and gas at about \$1.30 per thousand, our monthly bills averaged about \$6 in a family of five.

"The average monthly cost of the same character of work by electricity has amounted to \$6.09 for twenty-four consecutive months, or slightly higher than the coal and gas. The figures in neither case, it should be added, cover lighting bills.

bills.

"The rate of charge for electricity in Schenectady is 15 cents per kilowatt, with a discount for quantity, which averages a net cost of about 10 cents per kilowatt. This refers to electricity for lighting.

"The local electric company makes me a price of five cents per kilowatt for the heating device circuit, because the devices are used so much during the daytime and because they secure an income of more than \$100 per year from my residence, instead of only \$35 or \$40 per year which I would pay them for electric lighting only.

ing only.

"When building special attention was given to the heating of the kitchen and laundry from the hot air furnace. The extra initial cost is only slight, while the winter cost of operating is almost negligible.

winter cost of operating is almost negligible.

"A hot water front was placed in my furnace at an extra cost of about \$8, which furnishes hot water from October until May, the period when a furnace fire is being operated. During the summer months electric immersion coils furnish plenty of hot water without adding greatly to the expense, regarding which I have spoken fully in the foregoing."

Story of Misdfreeted Energy.

From the Woman's Home Companion. Frances, a girl of 13, was destined by her tother to be a fine musician. While still a little child she was taught to read the notes and her tiny fingers were placed on the keyboard. Year in and year out the child was obliged to practise, and she acquired a measured amount of skill, but her playing was wooden and spiritless. In despair, her mother said to her: "What do you expect to be when you are grown up?"

The girl sighed. "When I am grown up, mother, if I have a house of my cwn the first thing I shall do will be to order the plane chopped up for kindling wood. I want to be a doctor."

As time passed musical studies were dropped, and dulylFrances went to the medical college. At last she was allowed liberty to grow in her own proper direction. She is a successful physician, treating nervous disorders with rare sympathy and understanding. little child she was taught to read the notes

1,500 Fine Shirts for Men, at 58c. Ea. The Cool, Soft Bosom Kind.

If we put the value on these it would seem like exaggeration—anything less than the value MENS WEAR would be a decided injustice to the Shirt. It is an excellent Shirt at a most amazingly little price. There are both light and dark effects in fine madras-well made and the fabrics exactly the kind used in the best Shirts for this season. All clean and fresh goods-just arrived from the factory; sizes 14 to 17 inches.

Best Waist Values of the Season. A Sale Wherein We Excel All.

There never were such values given by any store in this country as we offer in Waists for women. Nor were there ever such beautiful Waists. From the dainty, delicately designed Waist at 59c. (think of such a price!) to the exquisite lingerie Waist, literally littered with lace, at \$2.98, there is not one that could be bought in any other store hereabouts at anything like the price. Moreover, there is no Waist Store that has such a wealth of designs—an assortment that is not matched in variety, beauty or economy in Greater New York. Is it any wonder that these sales attract women from all over the city?

Peerless Ice Cream Freezers

Remain the unchallenged champion Rapid Freezers, and they make just as fine cream as those that take a longer period of turning to freeze the cream.

The Quick Meal Gas Ranges

By the new improvement it is made so that no stooping is required in broiling and in baking, nor is there any reaching over the flames to get at the ovens. The warming ovens have also been replaced, and in some are over the flames, while in others they are under, but are very much better adapted to the pur-

pose for which they are designed.

The baking ovens are rendered much more satisfactory, as they are so much more quickly heated, and one may look into the oven during a baking without any waste of energy.

The adjustable gas orifice, which can be regulated according to the pressure of gas, makes these Ranges unique, and there is saving in gas. The slot burner is designed to economize gas and it is very easily cleaned.

The most expensive Range, selling for \$44.12, is a big, double one, having two ovens, two broilers, two high closets and tight burners, each one separate and independent of the other. Many think that this is good only for use in a hotel, but in the home kitchen, for the large family, it is ideal. Many prefer the range which stands upon high feet, up from the floor, while still others like the cabinet form base, resting directly upon the floor. In this last named one the spaces near the floor may be put to so many different uses that it seems altogether advisable to take advantage of them. The lowest priced range is \$17.80.

\$3.50 White Canvas Shoes for Women at \$2.45. One of three Enticing Summer Shoe Items.

This has been the best season for white footwear in the history of the shoe business just as it has been a magnificent season in white apparel. It is characteristic of the Abraham and Straus Shoe Store to have anticipated the demand and placed orders in advance so enormous in quantity as to provide plenty-while other stores are looking for these white shoes. It is also characteristic of this store to sell lower than any other store in the face of this scarcity and demand. To-morrow we offer-White Canvas Gibson plain toe, welted soles, Cuban heels, large eyelets—also in pump style with wide silk bow—\$3.50 Value at \$2.45.

Another Tremendous Waist Sale Saving a Third to Half of Usual Prices

AST WEEK THE GREATEST WAIST BUSINESS we ever knew in July—greatest by thousands of dollars. It was well justified, for never before, we believe, has Brooklyn known such a Waist Sale. And now the great distributing power of the Store has led another famous maker—the maker of the "Florence" Waists—to turn

over to us his entire surplus stock.

Together with hundreds of Waists from other sources, they will at least equal the values of last week. They make one of the greatest Waist Sales we have ever known.

FIFTY SUITS assembled from our regular stocks and repriced for quick dispersal because in no one style are there all sizes.

It is a good thing to remember that in the Loeser STORE FOR MEN no odd lots of Clothes are bought from makers. We have found that sort of thing very unsatisfactory. It is impossible to be sure that such Clothes will come up to the regular standard of make and fit and style.

So these Clothes, as well as any other Clothing reduced in price, may be depended on to be OUR OWN REGULAR STOCK, reduced in price for reasons which we plainly state.

In this group there are two and three garment fancy Suits in sizes to fit men of "regular" build from 34 to 44 chest measure, and stout men from 36 to 46 chest measure. Also some blue serge Suits for large men only.

OVER A THOUSAND PAIRS READY TO-MORROW that will not be nearly another. —and that will not be nearly enough to satisfy the mothers who know of these Summer sales in the past and who will be eager to share in this one. The Trousers come to us direct from our own maker. The fabrics are medium and dark sturdy cassimeres and cheviots. Sizes to fit boys of 6 to 16 years—and every pair of Trousers finely made. It is a great offering at 39c.

Five Thousand Summer Shirts

THREE OF THE FOREMOST MAKERS OF MEN'S SHIRTS decided a few days ago to make a general clearance of their Summer stock. We bought the Shirts, one condition being that we take the whole quantity at once and give the makers needed room. There, in a nutshell, is the reason for the biggest and best July Shirt Sale we ever held.

60c. and 75c. Shirts at 39c. Of percales and madrases in light, dark and medium effects, white, blue, tan, gray and pink, in plain and fancy effects. Some of the Shirts are plaited; but the majority are plain negligee.
